SUMMARY

Analytical and detail-oriented Computer Science graduate with nearly 2 years of professional experience in Workforce Management at Ernst & Young (EY). Proven expertise in operational reporting, resource capacity monitoring, data validation, and cross-functional stakeholder coordination. Combines professional background in workforce data tracking with practical project experience in end-to-end data analysis using SQL, Power BI, and Advanced Excel to translate complex datasets into actionable business insights. Eager to contribute data-driven problem-solving and operational excellence skills to support research and operations teams.

TECHNICAL PROFICIENCY

Data Analysis & Querying: SQL (Basic Queries, Joins, Aggregations, Window Functions, CTEs)

Business Intelligence & Reporting: Power BI (Power Query, DAX, Interactive Dashboards, Data Visualization)

Spreadsheet & Data Management: Microsoft Excel (Advanced: VLOOKUP, XLOOKUP, Index Match, Pivot Tables,

Data Validation, Conditional Formatting)

Cloud & Data Architecture: Microsoft Fabric (OneLake), Medallion Architecture, Dataflows (Gen2), Data Pipelines (ETL Automation)

Competencies: Data Cleaning & Organization, Trend Identification, Operational Reporting, Data Quality & Auditing, Resource Capacity Planning, Cross-functional Stakeholder Communication

KEY PROJECTS

Online Retail Sales Analysis | SQL Server, Power BI, DAX, Power Query | GithubLink

Designed an end-to-end sales analysis workflow using the UCI retail dataset to evaluate performance and customer trends.

Cleaned and modelled multi-thousand-row relational tables using Power Query and SQL Server to ensure data integrity.

Built interactive Power BI dashboards with custom DAX measures, uncovering that top-performing categories drove over 35% of revenue while tracking a 10% order cancellation rate.

Supply Chain & Procurement Analysis | Microsoft Fabric, Dataflows, Pipelines, Medallion Architecture | GithubLink

Built a procurement and logistics analytics platform using Microsoft Fabric Dataflows and Pipelines within a Medallion Architecture data model.

Uncovered critical operational insights: Safety Supplies drove the highest spend-target gap at 11.3M, while Delhivery B2B achieved an optimal 91.0% OTD rate with the lowest freight cost and fastest transit times.

PROFESSIONAL EXPERIENCE

Ernst & Young (EY) —Associate, Workforce Management. *September2024–June 2026*

Coordinated project allocations by aligning workforce availability with project requirements and business demands.

Monitored workforce data, resource utilization and employee availability to support workforce planning.

Prepared and shared weekly workforce and project status reports using Microsoft Excel.

Coordinated with stakeholders to communicate workforce updates and resolve allocation-related issues.

EDUCATION

Bachelor of Science Computer Science,
University of Calicut,
St. Joseph College Devagiri (2021-2024) Kozhikode, Kerala
